

# BY-NAME LIST SNAPSHOT

AS OF DECEMBER 2024

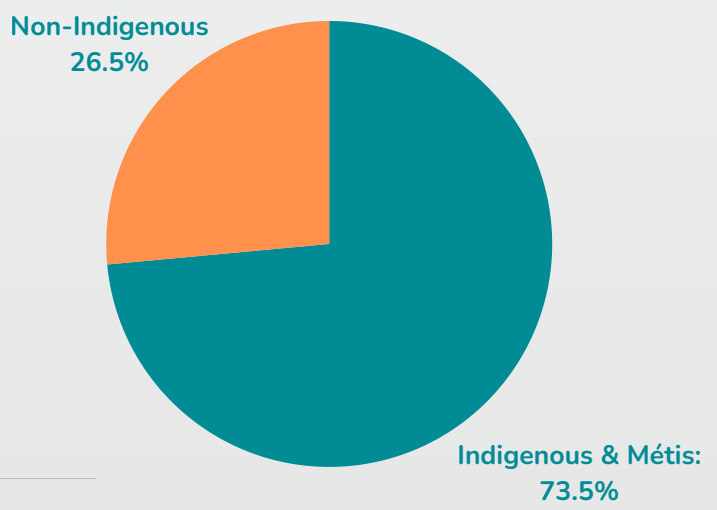

## About the By-Name List Data

The By-Name List is a real-time tool used to understand and respond to homelessness in our community. It includes information shared by individuals at the time of intake and is updated as circumstances change. The data shown here reflects what individuals reported at the time of assessment and provides a snapshot to help identify trends, service needs, and opportunities for coordinated support. Numbers may change over time as people move in and out of housing or update their information.
