

BY-NAME LIST SNAPSHOT

AS OF DECEMBER 2025

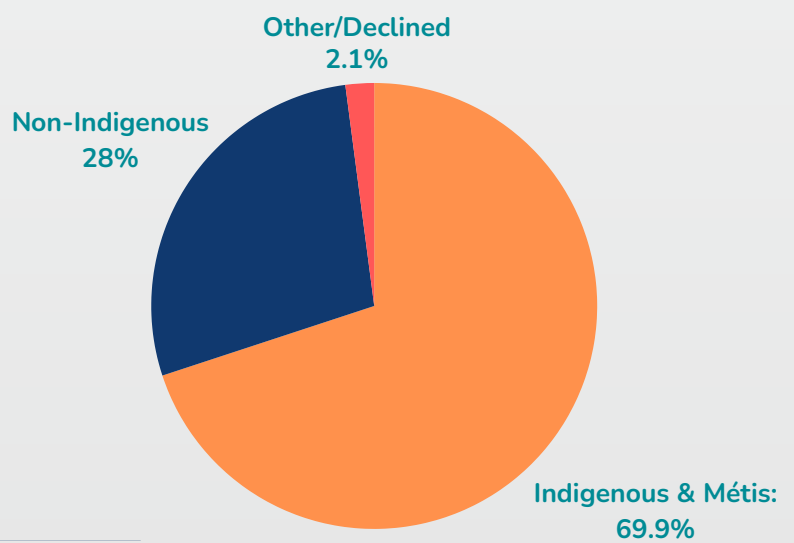

About the By-Name List Data

The By-Name List is a real-time tool used to understand and respond to homelessness in our community. It captures information shared at intake and is updated as circumstances change. This snapshot reflects what individuals reported at the time of assessment and helps identify trends, service needs, and opportunities for coordinated support. Numbers may change as people move in and out of housing or update their information.
